**OD & AD TRAVEL/SIGNIFICANT LEAVE:**

## HOT TOPICS

### This Week:

Eastern Michaud Flats/FMC (near Pocatello, ID): FMC is running ads in 4 local newspapers in the Pocatello area this week and next expressing their excitement to start cleanup work at the former FMC facility. EPA recently received their design for site grading and pending review and approval, this work could begin this summer. This week FMC also announced that they are splitting their farm business and minerals units into two separate publically traded companies. EPA's Unilateral Order was issued to FMC and its successors so there should be no impact on the cleanup activities.
